Introduction

The Graduate School is pleased to present the annual Doctoral Placement Report. This report is compiled based on a survey conducted by the Graduate School for doctoral recipients from the 2003-2004 academic year (i.e., doctoral degrees awarded in August 2003, December 2003, and May 2004). The survey is distributed to Directors of Graduate Studies and major professors late in the fall semester of the academic year following graduation (Fall 2005 for this report), and the responses are collected from the programs during the subsequent spring term. The DGS and major professor are asked to identify the nature and location of each doctoral recipient's *first* position of employment upon graduation. Placement categories include Academic (Administration, Research, College and University Teaching), Post-Doctoral, Business and Industry, Government, or other.

The Doctoral Placement Report is divided into two sections. The first section contains a disciplinary profile of our doctoral graduates as well as tables and figures that summarize doctoral placement for all graduates, including specific tables for Kentucky residents and international degree recipients. The second section provides a comprehensive listing detailing the job placement of all doctoral degree recipients arranged by the nature of the job placement and graduate program.

As you review this report, I am sure that you will be impressed by the broad range of employment secured by our doctoral graduates and the impact that they are making and will continue to make throughout the academic community, business and industry, and government. I encourage you to share this report with your unit faculty and staff, and other interested parties. If you need additional information concerning our doctoral graduates, please contact Dr. Onecia Gibson, Institutional Assessment Analyst for the Graduate School.

Dr. Jeannine Blackwell, Dean
The Graduate School

January 2006

Highlights

- The University of Kentucky produced 233 doctoral graduates during the 2003-2004 academic year. Of these 78 (33.5%) were in Biological Sciences, 29 (12.4%) were in the Humanities, 48 (20.6%) were in the Physical and Engineering Sciences, and 78 (33.5%) were in the Social Sciences. See Tables 10.1 and 10.2 for further details.
- Of the 233 doctoral recipients, 56 (24.0%) accepted employment in Kentucky, 124 (53.2%) obtained employment elsewhere in the United States, 22 (9.4%) doctoral recipients were employed outside of the U.S., and 31 (13.3%) doctoral recipients' place of employment is unknown. See Tables 4.1 and 4.2 for further details.
- Of the 233 doctoral recipients, 124 (53.2%) accepted academic positions, 38 (16.3%) accepted post-doctoral positions, 32 (13.7%) accepted positions in business and industry, 11 (4.7%) accepted government or military positions, and 26 (11.2%) doctoral recipients' job classification is unknown. See Tables 4.1 and 4.3 for further details.
- Of the 233 doctoral recipients, 88 (37.8%) were awarded to Kentucky residents. Of these 88 Kentucky residents, 50 (56.8%) accepted academic positions, 5 (5.7%) accepted post-doctoral positions, 12 (13.6%) accepted positions in business and industry, 5 (6.8%) accepted government or military positions, and 14 (15.9%) Kentucky doctoral recipients' job classification is unknown. See Tables 5.1 and 5.3 for further details.
- Of the 233 doctoral recipients, 104 (44.6%) were awarded to women. Of these 104 female doctoral recipients, 60 (57.7%) accepted academic positions, 16 (15.4%) accepted post-doctoral positions, 10 (9.6%) accepted positions in business and industry, 7 (6.7%) accepted government or military positions, and 11 (10.6%) female doctoral recipients' job classification is unknown. See Tables 6.1 and 6.3 for further details.
- Of the 233 doctoral recipients, 54 (23.2%) were awarded to international students. Of these 54 international doctoral recipients, 22 (40.7%) accepted academic positions, 13 (24.1%) accepted post-doctoral positions, 9 (16.7%) accepted positions in business and industry, 1 (1.9%) accepted government or military positions, and 9 (16.7%) international doctoral recipients' job classification is unknown. See Tables 7.1 and 7.3 for further details.
- Of the 233 doctoral recipients, 27 (11.6%) were awarded to minorities. Of these 27 minority doctoral recipients, 9 (33.3%) accepted academic positions, 3 (11.1%) accepted post-doctoral positions, 4 (14.8%) accepted positions in business and industry, 2 (7.4%) accepted government or military positions, 2 (7.4%) accepted other types of positions, and 7 (25.9%) minority doctoral recipients' job classification is unknown. See Tables 8.1 and 8.3 for further details.
